Professional Experiences

01/2022 – 09/2022

CPT Auditor

DTM9, Amazon

- Monitoring outbound logistics processes and material flow to support timely CPT operations.
- Handled confidential operational data, supported issue identification in a fast-paced warehouse environment.
- Collaborated with operations teams to maintain process accuracy under time-sensitive conditions.

05/2018 – 08/2020

Research Analyst

WebAppick LLC

- Research, Writing, Content analysis, Product communication, Usability, and Customer understanding.
- Development, support, and analyze customer requirements and technical features.

01/2016 – 04/2018

Project Organizer

Jonakir Alo

- Trained interns on field to navigate and understand various project tasks of the non-profit organization.
- Leadership in a small team of trainees to prepare and organize events for non-profit organization working to develop rural Bangladesh.
- Architected and implemented the front end of web applications as well as designed project blueprints.

06/2015 – 08/2016

Freelance Web Developer

Upwork

- Development of website frontends using HTML and CSS.
- Maintenance of client websites as a Webmaster.

Academic Background

09/2023 – 10/2026

MSc. in Logistics Engineering

University of Duisburg-Essen

- Thesis: “Green Hydrogen SC Traceability Framework.”
- Intralogistics, Factory Planning & Sustainability
- Strategic Planning & Management of Supply Chain Network

04/2013 – 11/2017

BSc. in Computer Science & Engineering

International Islamic University Chittagong

- Computer Programming & Web Designing
- Software Designing & Development
- Network and Database Management

Additional Projects

2026

Sustainable Supply Chain Traceability

Universität Duisburg-Essen

Logistics project with Ethereum integration to track green hydrogen using supply chain data and framework for certification.

- Green Hydrogen Supply Chain traceability.
- Blockchain integration with Supply Chain.
- Certification system for sustainable hydrogen.

2025

Lean Six Sigma Warehouse Waste Analysis

Personal Project

Applied DMAIC methodology to analyze warehouse process waste, identify root causes of delays and rework, and propose measurable improvements for operational efficiency.

- Mapping warehouse process steps.
- Identifying waiting time, motion waste, rework, and overprocessing and analyzing root causes.
- Show before/after KPI impact.

2024

Sustainability in maritime networks with WASP technology

Universität Duisburg-Essen

- Sustainability-focused study comparing conventional ship propulsion with wind-assisted ship propulsion technology.
- Analyzed fuel consumption and emission reduction.
- Evaluation of sustainable maritime logistics solutions.

Knowledge and Skills

Logistics, ERP & Supply Chain	Knowledge of Intralogistics, Material Flow Monitoring, Factory Planning, Sustainability and SCN planning. Understanding of logistics process analysis, operation workflows, and ERP-supported decision-making Experience of Purchasing, Inventory Management, Materials Management, Production Control.	
Data Analysis & Reporting	Microsoft Excel, Tableau, Power Query. Skilled in operational data to identify Process Issues, KPI Visualization, and Performance Reporting.	
Automation & Technical Skills	MySQL, Visual Studio, Microsoft Office, Workflow automation, Reasoning engines & Responsible AI use.	
Organizational and Analytical	Structured approach to analyze logistics processes, solving operational problems, and coordination. Experienced in handling operational data, performance metrics under time-sensitive conditions to organize information and decision-making through analytical tools.	
Communication & Teamwork	Strong communication skills in cross-functional teamwork, collaboration with internal departments, external stakeholders, and customers.	
Language	German	<i>(Advanced Conversation)</i>
	English	<i>(Business Fluent)</i>
	Bengali	<i>(Native)</i>
	Hindi	<i>(Advanced Conversation)</i>
Hobbies	I involve into creating things like writing and making music. I write stories for comic books and play outdoor sport.
